radiation of pregnant women (*tip*), June, p. 170
radiation therapy, gastric complications after (*tip*), February, p. 227
reading retardation (*tip*), March, p. 233
renal allograft transplantations, colorectal complications of (*tip*), June, p. 159
renal failure, chronic, major surgery for patients with (*tip*), April, p. 232
reovirus diarrhea (*tip*), February, p. 227
respiratory distress syndrome, adult (*tip*), January, p. 236
Rocky Mountain spotted fever (*tip*), April, p. 246
rubella vaccine (*tip*), March, p. 268

s

scabies, scraping for, *January, p. 129
schizophrenia, researchers find possible biochemical marker in (*med*), June, p. 143
scoliosis
—and school screening for spinal deformity, *May, p. 123
—screening programs could eliminate surgery for, April, p. 274
scoliosis survey (*tip*), March, p. 252
seizures in elderly patients (*tip*), January, p. 244
sex counseling, survey supports the need for, after heart attack (*med*), April, p. 214
sex steroid hormones influence antibodies to *C. albicans* (*med*), April, p. 207
sexual dysfunction
—due to drugs (*tip*), January, p. 217
—office recognition and management of, *April, p. 186
shigellosis, single-dose tetracycline therapy for (*tip*), June, p. 176
sickle cell anemia, hyperbilirubinemia in (*tip*), February, p. 205
sickle cell counseling, effectiveness of, *April, p. 127
sickle cell trait, pregnancy with (*tip*), March, p. 249
skin signs of internal malignancy, *March, p. 123
skull x-ray in the evaluation of endocrine diseases, *June, p. 85
sleep disorders and insomnia, *February, p. 165
smoking and spontaneous abortion (*tip*), March, p. 267
smoking behavior in medical students (*tip*), May, p. 204

soy protein intolerance (*tip*), April, p. 223
sports
—epilepsy and (*ed*), June, p. 67
—high school, injuries in (*tip*), June, p. 155
stress ulcers, prevention of, with cimetidine (*tip*), May, p. 216
stroke
—preventing, after TIA, *January, p. 179
—recovery after, is predicted with CT scans (*med*), February, p. 197
stroke volume, continuous measurement of (*tip*), April, p. 235
suicidal behavior, recurrent, in adolescents (*tip*), March, p. 258
suicide potential, computer determines, of depressed patients, March, p. 290
sulfinpyrazone after myocardial infarction (*tip*), May, p. 211
surgery
—assessment of cardiac risk in surgical patients (*tip*), May, p. 183
—cancer, palliative, survival after (*tip*), March, p. 276
—cardiac valve, diagnosis of infection after (*tip*), June, p. 172
—cataract, MD urges physicians to reevaluate, June, p. 196
—colon, preoperative oral antibiotics for (*tip*), February, p. 210
—coronary artery bypass, mortality and (*tip*), January, p. 228
—index of cardiac risk in (*tip*), February, p. 204
—intravenous regional anesthesia—'Bier block,' *February, p. 123
—laparoscopy and adolescent girls (*tip*), March, p. 272
—major, for patients with chronic renal failure (*tip*), April, p. 232
—myocardial infarction in coronary artery bypass patients (*tip*), January, p. 215
—preoperative chest x-rays in children (*tip*), March, p. 268
—for scoliosis, screening programs could eliminate, April, p. 274
—status of total hip arthroplasty (*tip*), February, p. 205
—surgical management of melanoma (*tip*), March, p. 236
—surgical management of multiple lung metastases (*tip*), May, p. 215
—surgical treatment of hyperthyroidism in children (*tip*), January, p. 252
—total colectomy and mucosal proctectomy in ulcerative colitis (*tip*), March, p. 274
swallowing disorders, rehabilitation of, *May, p. 84

t

tardive dyskinesia
—*April, p. 163
—practical management of (*ed*), April, p. 82
TCDD, researcher reports on effects of, May, p. 231
temporal arteritis, *February, p. 157
temporomandibular joint pain, corticosteroids for (*tip*), January, p. 255
terbutaline and aminophylline (*tip*), May, p. 184
tetraethyl lead poisoning (*tip*), March, p. 240
thiazide therapy, dietary salt intake increases with (*med*), April, p. 207
thrombosis, deep vein, is diagnosed with new test (*med*), February, p. 197
thymectomy in patients with myasthenia gravis (*tip*), May, p. 199
thyroid gland, ectopic (*tip*), June, p. 168
thyroid hormone and breast cancer (*tip*), June, p. 165
TIA, preventing stroke after, *January, p. 179
tracheobronchomegaly (*tip*), January, p. 238
tryptophan, L-: a natural sedative? (*tip*), April, p. 235
tuberculosis (TB)
—illegal aliens may be bringing, into U.S., January, p. 274
—smear-positive and culture-negative sputum for (*tip*), June, p. 178
—treatment of (*tip*), March, p. 230
tuberculous meningitis (*tip*), January, p. 257

u

ulcerative colitis, total colectomy and mucosal proctectomy in (*tip*), March, p. 274
ultrasonography for pleural opacity (*tip*), May, p. 224
ultrasound, diagnostic, and its obstetric applications, *May, p. 148
umbilical cord, bacterial colonization of (*tip*), February, p. 226

urinalysis, macroscopic, is an adequate screening test (*med*), January, p. 204
urinary tract infection
—home follow-up of (*tip*), February, p. 217
—uncomplicated, amoxicillin for (*tip*), May, p. 209
urologic disease, screening school children for (*tip*), January, p. 249

v

vaccine antibodies, persistence of (*tip*), June, p. 179
vancomycin (*tip*), January, p. 246
vascular injuries to the extremity (*tip*), February, p. 213
vena cava, inferior, dilatation of (*tip*), April, p. 228
venom inhibitor, investigators isolate, in rattlesnake blood, January, p. 262
ventricular arrhythmia, refractory, electrophysiologic studies and epicardial mapping (*tip*), May, p. 178
ventricular fibrillation in a supervised exercise program (*tip*), April, p. 221
ventricular premature beats and mortality (*tip*), February, p. 220
vesicoureteral reflux (*tip*), April, p. 248
viral gastroenteritis (*tip*), January, p. 216
vital statistics for 1976 (*tip*), April, p. 252

w

weight loss, effect of, on blood pressure (*tip*), April, p. 257
whiplash syndrome, *April, p. 144
Wilms' tumor with acute abdominal pain (*tip*), March, p. 263

x

x-ray instrument, hand-held, NASA develops, March, p. 286

y

yersiniosis, epidemic (*tip*), April, p. 250

a

abdominal left ventricular assist device (*tip*), July, p. 146
acetaminophen poisoning (*tip*), July, p. 141
acidosis, hyperchloremic, complicating jejunoileal bypass (*tip*), September, p. 195
adenoids, tonsils and (*tip*), August, p. 134
agranulocytosis, pentazocine and (*tip*), August, p. 132
air quality index, what is? *October, p. 121
albumin resuscitation, pulmonary effects of (*tip*), September, p. 206
alcohol and drugs, teenagers who use, investigator studies, July, p. 173
alcoholic, recognizing, confronting and helping, *November, p. 107
alopecias, common, diagnosing, *November, p. 76
anemia
—pernicious, carcinoid tumors of the stomach in (*tip*), September, p. 195
—pernicious, racial patterns in (*tip*), August, p. 131
anemic patient, *November, p. 144
anesthetics, local (*tip*), July, p. 158
anorexia in neoplastic disease (*tip*), October, p. 196
antacid prophylaxis of acute gastrointestinal bleeding (*tip*), October, p. 200
antibiotic prophylaxis for rectal examination (*ed*), October, p. 90
antibiotics, prophylactic preoperative, in appendicitis (*tip*), October, p. 207
antibodies, persistence of, after vaccination (*tip*), November, p. 184
anticoagulant therapy, corpus luteum hemorrhage and (*tip*), September, p. 198
anticonvulsant drugs, major, long-term use of, *October, p. 107
antidepressants, MAOI, use of, *July, p. 105
antimicrobial therapy of some common childhood infections, *July, p. 116
antimotion sickness drugs, antivertigo and, *December, p. 130
antivertigo and antimotion sickness drugs, *December, p. 130
apomorphine, improvement of schizophrenic symptoms with (*tip*), November, p. 178
appendicitis, prophylactic preoperative antibiotics in (*tip*), October, p. 207
arteriovenous fistula(s)
—clubbing of the fingers and (*tip*), November, p. 208
—complications associated with (*tip*), November, p. 199
—for long-term dialysis (*tip*), November, p. 196
arteriovenous malformation, intestinal, localization of (*tip*), September, p. 204
arthritis
—rheumatoid, *July, p. 89
—and sporotrichosis (*tip*), November, p. 202
ascites, peritoneal venous shunting for (*tip*), September, p. 213
aspirin and threatened stroke (*tip*), November, p. 211
asthmatic, *December, p. 124

b

bacteria are used to identify types of lymphocytes (*med*), November, p. 163
BCG immunotherapy in bronchogenic carcinoma (*tip*), July, p. 141
beta-adrenergic stimulation in hypertensive rats (*tip*), November, p. 183
bile saturation, effects of bran on (*tip*), September, p. 202
bilirubin level, researchers develop test to monitor, August, p. 153
biopsy
—excisional, breast carcinoma and (*tip*), October, p. 224
—percutaneous aspiration, radiologist discusses merits of, September, p. 230
blood pressure, circadian variation of (*tip*), September, p. 183
boating accidents (*ed*), August, p. 69
bone involvement, sarcoidosis and (*tip*), September, p. 214
bovine carotid heterograft for renal dialysis (*tip*), October, p. 228
bowel cancer, manikin is designed to teach detection of, November, p. 219
bran, effects of, on bile saturation (*tip*), September, p. 202
breast, tuberculosis of (*tip*), September, p. 177
breast cancer(s)
—hormone-responsive, new test reveals (*med*), July, p. 137

—significance of estrogen receptors in (*tip*), September, p. 214
breast carcinoma and excisional biopsy (*tip*), October, p. 224
breech presentation and delivery, management of, *December, p. 92
bronchoscopy, outpatient (*tip*), September, p. 216
burn patients, cardiac output determination in (*tip*), October, p. 203
burn treatment, extensive, progress report on (*tip*), September, p. 177
burns, tap-water scald, in children (*tip*), December, p. 137

C

cancer(s)
—bowel, manikin is designed to teach detection of, November, p. 219
—breast, hormone-responsive, new test reveals (*med*), July, p. 137
—breast, significance of estrogen receptors in (*tip*), September, p. 214
—colorectal, asymptomatic, detection of, *September, p. 89
—and estrogen use, NCI releases statement on, August, p. 147
—liver, intermittent hepatic artery occlusion with infusion chemotherapy for (*tip*), November, p. 186
—lung, changing incidence of (*tip*), October, p. 228
—lung, pneumothorax and (*tip*), July, p. 143
—lung, serum ribonuclease activity in (*tip*), November, p. 194
—lung, surgical treatment of, in patients over seventy (*tip*), October, p. 198
—skin, hypercalcemia in (*tip*), October, p. 206
cancer incidence, NCI releases report on, December, p. 150
cancer patients, protected environments reduce infection rate in, October, p. 233
candidiasis, undetected, autopsies reveal incidence of (*med*), November, p. 163
carbon monoxide poisoning, subacute (*tip*), July, p. 154
carcinoid tumor(s)
—small bowel obstruction due to (*tip*), October, p. 222
—of the stomach in pernicious anemia (*tip*), September, p. 195
carcinoma
—breast, and excisional biopsy (*tip*), October, p. 224
—bronchogenic, BCG immunotherapy in (*tip*), July, p. 141
—medullary thyroid, and pentagastrin (*tip*), October, p. 194
—small cell, of the lung, therapy for (*tip*), October, p. 212
cardiac complications from fasting (*tip*), October, p. 226
cardiac compression, external (*tip*), November, p. 186
cardiac effects of exercise training (*tip*), September, p. 190
cardiac failure, low-output, phentolamine in (*tip*), October, p. 220
cardiac output determination in burn patients (*tip*), October, p. 203
cardiac work-up, echocardiography in, *September, p. 136
cardioplegia, potassium (*tip*), December, p. 146
cardiovascular nutrition, education in (*tip*), December, p. 137
cardioversion, self-administered chest thump for (*tip*), September, p. 198
cathartics, effects of, on serum calcium (*tip*), October, p. 200
child, when a, dies, *September, p. 107
childhood infections, some common, antimicrobial therapy of, *July, p. 116
cholangitis, sclerosing (*tip*), October, p. 210
cholesterol levels, serum, nutrient intake and, in children (*tip*), August, p. 125
cholesterol study, researchers report on, September, p. 223
circadian variation of blood pressure (*tip*), September, p. 183
cirrhosis
—hepatic metabolism in (*tip*), November, p. 177
—taste and smell acuity in (*tip*), September, p. 189
cleft lip and palate, treatment of, team approach to, *July, p. 74
cleft palate patients, routine tympanometry is advocated in (*med*), November, p. 164
clubbing of the fingers and arteriovenous fistula (*tip*), November, p. 208
coarctation of the aorta
—echocardiographic detection of (*tip*), August, p. 141
—sympathetic nervous system activity after surgery for (*tip*), July, p. 151
colitis
—acute amebic (*tip*), October, p. 194
—ulcerative and Crohn's, ileorectal anastomosis for (*tip*), November, p. 188
colorectal cancer, asymptomatic, detection of, *September, p. 89

condylomata acuminata, perianal and anal, treatment of (*tip*), July, p. 154
coronary arterial spasm, induction of (*tip*), October, p. 213
coronary artery occlusion, reflex alterations during (*tip*), November, p. 173
coronary disease, abnormal light reflex is linked with (*med*), August, p. 113
coronary disease, marathon running in patients with, is studied (*med*), September, p. 173
corpus luteum hemorrhage and anticoagulant therapy (*tip*), September, p. 198
Corynebacterium parvulum for malignant effusions (*tip*), August, p. 136
creatine phosphokinase after exercise (*tip*), December, p. 140
Cushing's disease, microadenomas in (*tip*), August, p. 127
cyclamate, saccharin and (*ed*), October, p. 89
cytology, gynecologic, *November, p. 134

d

depression: a new approach to an old syndrome, *October, p. 127
dermatitis associated with warfarin (*tip*), September, p. 191
diabetic emergencies, *September, p. 115
dialysis, long-term, arteriovenous fistulas for (*tip*), November, p. 196
diarrhea
—traveler's, doxycycline for (*tip*), October, p. 213
—traveler's, vaccination against, appears promising (*med*), August, p. 114
diets, liquid protein (*ed*), December, p. 88
dopamine-β-hydroxylase levels, norepinephrine and (*tip*), November, p. 204
doxycycline
—in renal failure (*tip*), September, p. 212
—for traveler's diarrhea (*tip*), October, p. 213
DPTs, are repeat, safe? (*info pl*), August, p. 119

e

echocardiographic detection of coarctation of the aorta (*tip*), August, p. 141
echocardiography in the cardiac work-up, *September, p. 136
edema, hypoproteinemic, assessment of (*tip*), September, p. 200
electromyoneurography, *November, p. 119
embolization, therapeutic (*tip*), October, p. 224
emphysema, benign retroperitoneal (*tip*), October, p. 220
epiglottitis, acute, in adults, *July, p. 99
ergotamine, toxic effects of (*tip*), October, p. 218
estrogen receptors, significance of, in breast cancer (*tip*), September, p. 214
estrogen use, cancer and, NCI releases statement on, August, p. 147
ethambutol and intraocular pressure (*tip*), September, p. 204
exercise, creatine phosphokinase after (*tip*), December, p. 140
exercise tests before exercise (*tip*), October, p. 208
exercise training, cardiac effects of (*tip*), September, p. 190
extrapulmonary lesions that mimic intrapulmonary disease (*tip*), August, p. 125

f

fasting, cardiac complications from (*tip*), October, p. 226
fertility disincentives (*tip*), August, p. 137
fibrocystic mastopathy, hormones and (*tip*), November, p. 200
fluorouracil cardiotoxicity (*tip*), August, p. 140

g

gallbladder for partial bladder replacement, MDs successfully use, July, p. 169
gallium, lung uptake of (*tip*), July, p. 147
gallium scanning in pneumocystis (*tip*), September, p. 196
gallstones, asymptomatic, benefits of surgery for, *October, p. 171
gastric bezoars (*tip*), December, p. 146
'gastric stapling' helps obese patients reduce, October, p. 233
gastrointestinal bleeding, acute, antacid prophylaxis of (*tip*), October, p. 200
gout, is diuretic therapy contraindicated in? (*info pl*), August, p. 119
gynecologic cytology, *November, p. 134

h

hand infections, *September, p. 79
hand ischemia, systematic approach to (*tip*), July, p. 143
headache, effects of sex hormone therapy on (*tip*), December, p. 144
heart, aging, *August, p. 73
heart block in acute leukemia (*tip*), November, p. 191

heart sound(s)
—second, low-intensity component of (*tip*), August, p. 131
—third and fourth (*ed*), September, p. 73
hemodialysis, remission of psoriasis during (*tip*), July, p. 155
hemoglobin S-C disease in pregnancy (*tip*), September, p. 210
hepatic artery occlusion, intermittent, with infusion chemotherapy for liver cancer (*tip*), November, p. 186
hepatic metabolism in cirrhosis (*tip*), November, p. 177
hepatitis B, transmission of, in infants (*tip*), September, p. 200
hepatitis B immune globulin, value of (*tip*), August, p. 126
hormones and fibrocystic mastopathy (*tip*), November, p. 200
hypercalcemia
—may affect asthmatic symptoms (*med*), July, p. 133
—in skin cancer (*tip*), October, p. 206
hypercalcemic crisis due to hyperparathyroidism (*tip*), September, p. 196
hyperparathyroidism
—in the elderly (*tip*), December, p. 138
—hypercalcemic crisis due to (*tip*), September, p. 196
—persistent (*tip*), October, p. 206
hyperpigmentation with pernicious anemia (*tip*), July, p. 160
hypertension
—function of the right side of the circulation in (*tip*), October, p. 217
—malignant, acute pancreatitis and (*tip*), November, p. 183
—and its management are described, December, p. 149
—rest and exercise blood pressures help to predict (*med*), September, p. 173
hypertensive rats, beta-adrenergic stimulation in (*tip*), November, p. 183
hypertensive work-up, routine tests in (*tip*), November, p. 211
hypnosis is valuable in child treatment when used cautiously, October, p. 234
hypoproteinemic edema, assessment of (*tip*), September, p. 200

i

^{131}I, patients treated with, home environment of (*tip*), August, p. 125
ileorectal anastomosis for ulcerative and Crohn's colitis (*tip*), November, p. 188
immune system, ultraviolet radiation may affect the body's, September, p. 221
immunization programs, influenza (*tip*), November, p. 178
influenza immunization programs (*tip*), November, p. 178
influenza vaccination is needed, CDC says, November, p. 215
influenza vaccines—fall 1978, *November, p. 156
insulin requirement, decreased (*tip*), July, p. 141
intestinal pseudo-obstruction, *August, p. 85
intraocular pressure, ethambutol and (*tip*), September, p. 204
intraoral injuries, management of, *November, p. 96
intrapulmonary disease, extrapulmonary lesions that mimic (*tip*), August, p. 125
irritable bowel syndrome, colonic activity in (*tip*), September, p. 212

j

jejunoileal bypass, hyperchloremic acidosis complicating (*tip*), September, p. 195

k

kidney and pregnancy, *October, p. 97

l

Legionnaires' disease
—in renal transplant recipients (*tip*), September, p. 190
—x-ray study of, radiologists report on, September, p. 226
leukemia
—acute, heart block in (*tip*), November, p. 191
—surgical (*tip*), September, p. 206
liquid protein diets (*ed*), December, p. 88
liver cancer, intermittent hepatic artery occlusion with infusion chemotherapy for (*tip*), November, p. 186
liver cell adenoma (*tip*), August, p. 127
lung, small cell carcinoma of, therapy for (*tip*), October, p. 212
lung abscess, giant, management of (*tip*), November, p. 202
lung cancer
—changing incidence of (*tip*), October, p. 228
—serum ribonuclease activity in (*tip*), November, p. 194
—surgical treatment of, in patients over seventy (*tip*), October, p. 198
lymphocytes, bacteria are used to identify types of (*med*), November, p. 163

m

magnets are used to guide drugs to specific sites in animals (*med*), July, p. 137
malaria, chemoprophylaxis of (*tip*), October, p. 214
malignant effusions, *Corynebacterium parvulum* for (*tip*), August, p. 136
MAOI antidepressants, use of, *July, p. 105
measles, atypical, pulmonary lesions in (*tip*), November, p. 188
melanoma
—malignant, adjuvant therapy for (*tip*), October, p. 214
—and sunspot activity (*tip*), October, p. 207
metabolism, inborn errors of, in the neonatal period (*tip*), July, p. 150
metronidazole, treatment of nonspecific vaginitis with (*tip*), November, p. 194
migraine, cerebral blood flow patterns help explain course of (*med*), August, p. 113
mononucleosis, infectious, rupture of the spleen in (*tip*), November, p. 196
myocardial contractility, PEEP and (*tip*), November, p. 191
myocardial infarction
—embolic (*tip*), October, p. 195
—smoking and, in young women (*tip*), November, p. 199
—ventricular septal defect due to, *October, p. 153
myocardial ischemia, acute, prostacyclin for? (*tip*), September, p. 217
myocardial revascularization in patients receiving propranolol (*tip*), July, p. 160

n

narcotic antagonist effective but causes metabolic problems, July, p. 170
neck injuries, routine anterior pillar x-rays are indicated in (*med*), August, p. 114
neoplastic disease, anorexia in (*tip*), October, p. 196
nitroglycerin, topical (*tip*), September, p. 202
nocardiosis, pulmonary (*tip*), October, p. 218
norepinephrine and dopamine-β-hydroxylase levels (*tip*), November, p. 204
nutrient intake and serum cholesterol levels in children (*tip*), August, p. 125
nutrition, cardiovascular, education in (*tip*), December, p. 137

o

obese patients, 'gastric stapling' helps, reduce, October, p. 233
obesity, bypass operations for (*tip*), October, p. 202
ocular emergencies, *October, p. 178
ocular hazards in racket sports (*tip*), November, p. 204
oncotaxis, inflammatory (*tip*), November, p. 206
oral drugs, formulations and dosages of, *September, p. 160
orbital auscultation, *December, p. 117
osteomyelitis of the jaw, tooth extractions can lead to (*med*), November, p. 164
osteoporosis
—effects of calcium, *October, p. 160
—immobilization-induced (*tip*), November, p. 173
oxygen, use and abuse of, in the newborn, *September, p. 125

p

pacemakers, cardiac, infection and (*tip*), September, p. 178
pancreatitis, acute, and malignant hypertension (*tip*), November, p. 183
parathyroid adenomas, ultrasonic detection of (*tip*), September, p. 208
parenteral nutrition, total, with lipids (*tip*), July, p. 159
PCBs no threat to most infants of nursing mothers, AAP says, September, p. 221
PEEP and myocardial contractility (*tip*), November, p. 191
pentagastrin, medullary thyroid carcinoma and (*tip*), October, p. 194
pentazocine, agranulocytosis and (*tip*), August, p. 132
peptic ulcer, treatment of (*tip*), November, p. 180
peritoneoscopy for detecting liver lesions (*tip*), July, p. 158
pernicious anemia
—carcinoid tumors of the stomach in (*tip*), September, p. 195
—racial patterns in (*tip*), August, p. 131
Peutz-Jeghers syndrome, metastases in (*tip*), September, p. 210
phentolamine in low-output cardiac failure (*tip*), October, p. 220
PKU children need prolonged, rigid diet, researchers indicate, November, p. 226
platelet survival time, improved, with oxygen administration (*tip*), July, p. 161
pneumocystis, gallium scanning in (*tip*), September, p. 196
pneumothorax and lung cancer (*tip*), July, p. 143
poisons, liquid emulsion neutralizes, through absorption, July, p. 173

polio vaccination, does breast milk inhibit? (*info pl*), August, p. 121
potassium cardioplegia (*tip*), December, p. 146
pregnancy, kidney and, *October, p. 97
prescribing information, sources of, *October, p. 188
propranolol, abrupt withdrawal of (*tip*), November, p. 206
prostacyclin for acute myocardial ischemia? (*tip*), September, p. 217
psoriasis, remission of, during hemodialysis (*tip*), July, p. 155
pulmonary effects of albumin resuscitation (*tip*), September, p. 206
pulmonary hemorrhage, massive (*tip*), August, p. 134
pulmonary lesions in atypical measles (*tip*), November, p. 188
pulmonary nocardiosis (*tip*), October, p. 218

q

r

racing, short track asphalt, injuries in, *October, p. 137
radiation
—neutron, fast, investigators report on, August, p. 148
—ultraviolet, may affect the body's immune system, September, p. 221
radiation protection, physician's role in, *December, p. 103
rape victim, management of, *September, p. 97
RDS, adult, in gram-negative bacteremia is studied (*med*), July, p. 133
rectal examination, antibiotic prophylaxis for (*ed*), October, p. 90
renal dialysis, bovine carotid heterograft for (*tip*), October, p. 228
renal failure
—acute, *September, p. 146
—doxycycline in (*tip*), September, p. 212
—intrinsic, acute reversible (*tip*), September, p. 184
renal preservation, update on (*tip*), December, p. 144
renal transplant recipients, Legionnaires' disease in (*tip*), September, p. 190
renal transplant survival, update on (*tip*), September, p. 217
rheumatoid arthritis, *July, p. 89
ribonuclease activity, serum, in lung cancer (*tip*), November, p. 194

s

saccharin and cyclamate (*ed*), October, p. 89
sarcoidosis, bone involvement and (*tip*), September, p. 214
sarcoma(s)
—lymphatic spread in (*tip*), November, p. 208
—soft tissue (*tip*), November, p. 184
schizophrenic symptoms, improvement of, with apomorphine (*tip*), November, p. 178
selenium deficiency is linked to oxygen toxicity in prematures (*med*), September, p. 171
senility
—rate of, exams may decrease, November, p. 224
—treatable causes of (*ed*), October, p. 90
serum calcium, effects of cathartics on (*tip*), October, p. 200
sex hormone therapy, effects of, on headache (*tip*), December, p. 144
sexual abuse victims, counseling, *November, p. 85
sexual dysfunction in 'normal' couples (*tip*), December, p. 142
sexual history, routine, *October, p. 145
SIDS (sudden infant death syndrome), researchers find a clue to the mystery of (*med*), November, p. 163
sinus mucocele, sphenoid (*tip*), October, p. 196
skin cancer, hypercalcemia in (*tip*), October, p. 206
small bowel obstruction due to carcinoid tumor (*tip*), October, p. 222
smoking and myocardial infarction in young women (*tip*), November, p. 199
smoking education programs (*tip*), August, p. 141
spermicidal vaginal suppository (*tip*), July, p. 154
spleen, rupture of, in infectious mononucleosis (*tip*), November, p. 196
sporotrichosis, arthritis and (*tip*), November, p. 202
ST depression on ECG shows extent of coronary disease (*med*), July, p. 133
staphylococcal colonization in newborn nurseries (*tip*), July, p. 161
stroke, threatened, aspirin and (*tip*), November, p. 211
suicide risk, evaluation of, *December, p. 109
sulfisoxazole, thrombocytopenic purpura induced by (*tip*), September, p. 216

t

tachyarrhythmias, supraventricular, verapamil for (*tip*), August, p. 132

taste acuity, zinc and (*tip*), July, p. 155
tetanus prophylaxis in wound management (*tip*), August, p. 137
thrombocytopenic purpura induced by sulfisoxazole (*tip*), September, p. 216
thrombocytosis, postsplenectomy (*tip*), November, p. 177
thyroid carcinoma, medullary, and pentagastrin (*tip*), October, p. 194
thyrotoxicosis, treatment of, by propranolol and surgery (*tip*), August, p. 140
tonsils and adenoids (*tip*), August, p. 134
tooth extractions can lead to osteomyelitis of the jaw (*med*), November, p. 164
tracheal intubation, prolonged, prevention of complications from (*tip*), September, p. 185
tuberculosis of the breast (*tip*), September, p. 177
tumor growth, diet affects, in mice, study shows (*med*), September, p. 171
tympanometry, routine, is advocated in cleft palate patients (*med*), November, p. 164

u

urethritis, choosing an antibiotic for, *July, p. 127
urinalysis, screening (*tip*), December, p. 142

v

vaccination
—influenza, is needed, CDC says, November, p. 215
—persistence of antibodies after (*tip*), November, p. 184
vaccines, influenza—fall 1978, *November, p. 156
vaginitis, nonspecific, treatment of, with metronidazole (*tip*), November, p. 194
"Valsalva overshoot," what is? (*info pl*), August, p. 119
varicella-zoster infection, disseminated, bowel obstruction from (*tip*), September, p. 189
venereal diseases, *August, p. 90
ventricular septal defect
—due to myocardial infarction, *October, p. 153
—patients with, growth in (*tip*), October, p. 222
verapamil for supraventricular tachyarrhythmias (*tip*), August, p. 132
vitamin E, why give, to newborns? (*info pl*), August, p. 121
vitamin levels, minute, new test reveals, December, p. 150
vitamin toxicity, *August, p. 106

w

warfarin, dermatitis associated with (*tip*), September, p. 191
wide bladder neck syndrome (*tip*), November, p. 191
Wilson's disease (*tip*), November, p. 200

x

y

z

zinc and taste acuity (*tip*), July, p. 155
zinc levels, hair (*tip*), October, p. 202
